

eSilicon Viewpoint

Jack Harding
Chairman and CEO – eSilicon
Design Team Advisor - eBeam Initiative

DFEB is good for the industry

- Introduces a new design-to-manufacturing approach
- Provides a great alternative to existing solutions
- Decrease in mask costs
- More design starts
- Faster time-to-market

Applications for DFEB

High-End, Low-Volume

Super Computing
Aerospace
“Prosumer” devices
Satellites
Base Stations

Prototypes & Test Chips

Derivative Designs

Why is eSilicon participating?

- High potential to:
 - Positively impact our business
 - Reduce NRE overhead
 - Benefit our customers
 - Facilitate more products
